# So, really... what is the big deal about PVC aka Vinyl?

**PVC is not a green product,  
Vinyl has toxins and it  
smells like a shower curtain!**

Eliminate PVC from your beverage system  
and make the switch to EJ Beverage.

## Why switch to EJ Beverage...

- No use of Chlorine in manufacturing
- No flavor contamination
- Born for medical - evolved for beverage
- Ultra-low extractable/leachable
- No DEHP or other harmful plasticizers
- NSF and FDA Compliant Materials
- Flexible and clear tubing without harmful dioxins
- Coiled tube promotes consistent temperature
- Superior barrier properties compared to PVC tubing
- No additives like lead or use of mercury to produce
- Brewery inspired, tested, and brewery approved
